Cartography & Geospatial Visualization

Session 4

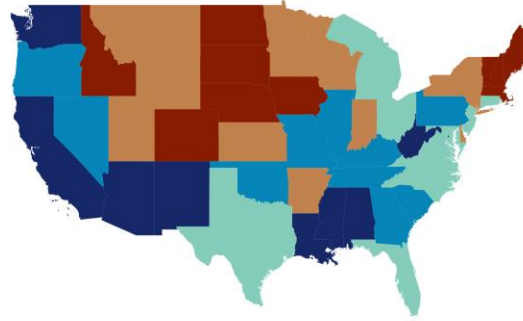

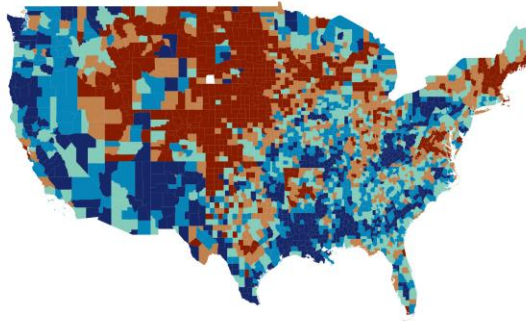

Cartography & Geospatial Visualization

Session 4

Objectives:

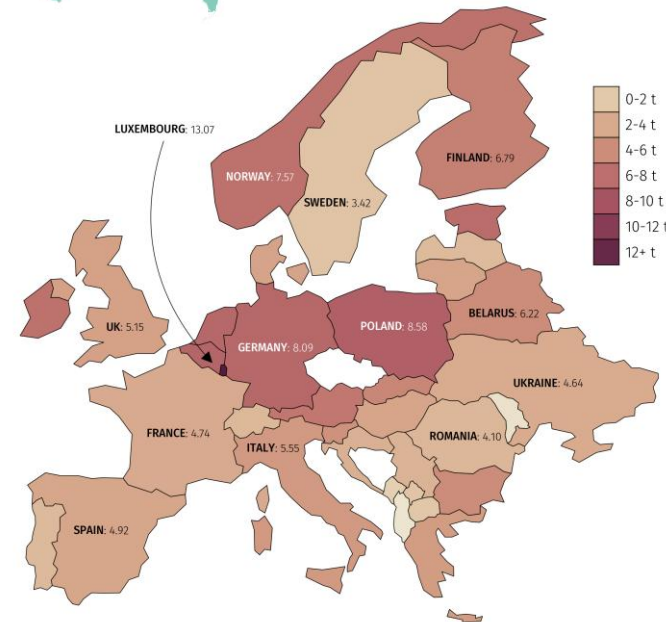

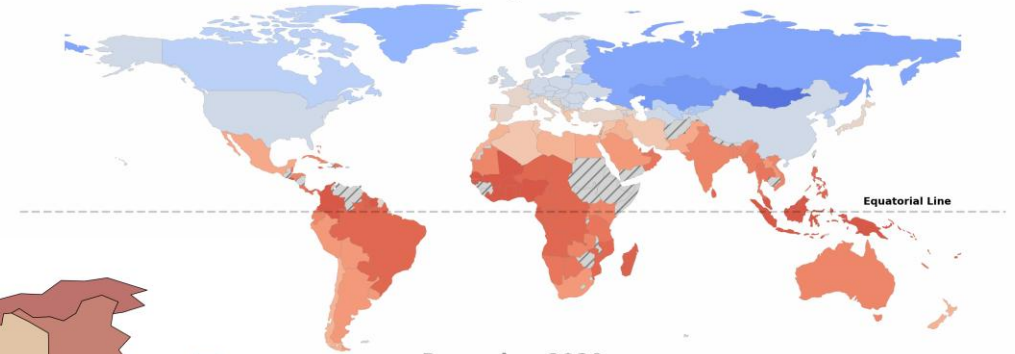

- Understand the importance and applications of geospatial visualization.
- Learn different types of maps and when to use them.
- Discover essential tools: geopandas and folium.
- Learn how to create static and interactive maps using Python

Cartography & Geospatial Visualization

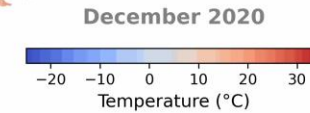

Tracking Global Temperature

Countries more distant from the equator experience greater fluctuations in temperature
Daily average, °Celsius

CO2 EMISSIONS PER CAPITA IN EUROPE (2021)

Unit: metric tons | Data: zenodo.org | Viz: barbierjoseph.com
